Bombay, 7th July 1880.

NOTICE TO THE PUBLIC.

WITH effect from the 1st August, 1880, the RATES of COMMISSION CHARGED on the REALIZATION of the VALUE of PARCELS and REGISTERED BOOK PACKETS sent under the "VALUE-PAYABLE" SYSTEM will be REDUCED to HALF what they now are and thereby assimilated to the rates of commission charged on the issue of money orders. The new rates will be as follows:—

On sums not exceeding				
Rs. 10	...	Rs.	0	2
„ 25	...	„	0	4
„ 50	...	„	0	8
„ 75	...	„	0	12
„ 100	...	„	1	0
„ 125	...	„	1	4
„ 150	...	„	1	8

and 4 annas for every additional Rs. 25 or fraction thereof.

The value of the contents of a value-payable article will be limited to Rs. 600.

Value-payable articles may be addressed only to the Post Offices which are Money Order Offices; and they may be posted only in Post Offices which are Money Order Offices. The former restriction limiting the posting of value-payable articles in Disbursing Post Offices is superseded.

The amounts realized from the addressees of value-payable articles less the commission chargeable thereon will be paid to the senders by means of money orders.

When a value-payable article is presented at a Post Office, it must be accompanied by a memorandum prepared by the sender in the prescribed form, printed copies of which may be obtained from the Post Office on application.

NOTICE.

ALL SHRAWUCK BRETHREN of our Jain religion residing in this and other Cities and villages in India are aware that a firm styled SETT ANANDJI CALLIANJI has been established at Palitana for a very long time on behalf of the Shrawuck community professing the Jain religion to take care of our sacred Shutrunjaya Hill and the Temples, &c., thereon, and to control religious revenues and disbursements. Memorials addressed to Government and the British Authorities in the name of that firm in reference to the said Shutroonjaya Hill and Temples, &c., thereon, are signed by us, and our authorized Agents, and we have been for a long time carrying on business in connection herewith. Although the above system was in force, our Shrawuck brethren are hereby informed that Government have recently on a Memorial addressed to them relating to some business decided that there is no such person as Sett Anandji Callianji who has the right to assume the title of representative of the Shrawuck community in India, and have also decided that it is expedient that persons assuming the title of representatives of any body should, in the usual manner, clearly shew, that they have been formally vested with the power to represent those whose interests are alleged to be in their charge, Government having raised this objection, the transmission of all memorials, &c., in reference to the affairs of Shatroonjaya is impeded, whereby matters in dispute with the Thakore Sahib of Palitana in connection with the enumeration, &c., of Shrawuck pilgrims to Shutroonjaya, and many other hindrances that have arisen, will probably result in great loss to us. Therefore to remove the objection raised by Government it becomes necessary to convene a meeting of all Shrawuck brethren of our Jain religion to consider and pass resolutions on the following propositions. All the Shrawuck brethren of our Jain religion are informed by this notice that the meeting will be held at Ahmedabad in the Bungalow of Rao Bahadoor Nugger Sett Premabhai Hemabhai at 11 a. m. on Bhadarwa Vad 1st Sunday, Samvat 1936, corresponding with 19th September, 1880. Considering this to be a matter of grave importance, all the Shrawuck brethren will be the trouble to attend the said Meeting on the said date. If, however, by reason of distances, or owing to any other causes, the Shrawucks of other places are unable to attend the said Meeting, they are requested to call together the Shung of their cities and villages, and pass resolutions on the following propositions which with the signatures of the persons attending the Meeting, should be forwarded to this place, so as to reach us before the day or time appointed for the Meeting here. If this is not done, it will be taken for granted that resolutions, which may be passed at the Meeting here, have their approval.

PROPOSITIONS.

1. Whether all previous acts performed on behalf of the Shrawuck community in the name of Sett Anandji Callianji for the removal of hindrances on the part of the Thakore Sahib of Palitana in the affairs of, and relating to Shutroonjaya should be confirmed or not.
2. Whether we who have hitherto signed as representatives in above matters should continue to act as such for the future and whether the number of representatives should be increased or decreased.
3. In the event of any appointed representative resigning, or becoming unfit for work, or dying, whether the remaining representatives should be empowered or not to elect a fresh man in his place.
4. Whether representatives appointed at the Meeting should be fully empowered or not to manage in future the business of the Firm styled Sett Anandji Callianji and its branches.

COMMERCIAL INTELLIGENCE

TUESDAY EVENING, JULY 13.

REUTER'S telegrams of yesterday quote Consols unchanged at 98¼, and French Rentes ¼ easier at Francs 119½. Indian Government Securities were ¼ higher, Fours being quoted at 80 and Fours-and-a-half at 87½.

In the London General Produce market Coffee was still quoted at 91s. per cwt. for Mid. Plantation and 61s. 6d. per cwt. for Good Ordinary Native. Cocoanut Oil was unaltered at £32 per ton for Ceylon and £36 per ton for Cochin. Linseed was partially 6d. per cwt. lower, and Wheat 6d. to 1s. per quarter higher.

The Skin Sales opened yesterday with a fair demand for all kinds without change in price.

Metals in London yesterday were as last quoted, viz., Copper Brasiers £70, Wallaroo Tiles £72, Yellow Metal Brasiers 5½d. per lb., Hard Spelter £36 per ton.

The market for Piece Goods in Manchester yesterday was firm, as also was that for Cotton in Liverpool. The day's sales amounted to 10,000 bales, of which 1,200 Surats, but although American Cotton is 1-16d. per lb. dearer with Mid. Uplands at 6¾d. per lb., no improvement has yet taken place in East India descriptions. And fair Dhollera remains at the very moderate figure of 4 15-16d. per lb.

The New York telegrams of yesterday still quote ready Mid. Uplands at 11¼ cents per lb Futures for Oct. delivery were quoted at 10·77 or a decline of ·02 cents per lb. from Saturday. The Receipts at the U. S. ports to date are as follows, viz. :—

	1880	1879	1878
Three days' Receipts..... ..	4,000	800	1,100
Total since 1st Sept	4,842,600	4,420,300	4,212,700

BAR SILVER in London yesterday was still quoted at 52¾d. per oz.

EXCHANGE has been firmer here to-day, owing to the continued steadiness reported from Calcutta, as the amount of business passing here especially in Mercantile Bills is very small. Rates, however, show an advance of 1-32d. per Rupee all round on our yesterday quotations, viz. :—

Bank Bills, on demand.....	1s. 8 3-16d.	per Re.
" Telegraphic.....	1s. 8 5-32d.	"
" 3 months' sight...	1s. 8 5-16d.	"
Credits 3 " ...	1s. 8 13-32d.	"
Documents 3 " ...	1s. 8 7-16d.	"

On Calcutta rates are unchanged at 3-16 premium for demand drafts and ¼ per cent. discount for 60 days' sight bills.

GOVERNMENT PAPER.—The market has been steady to-day, and a fair amount of business done at our quotations in both Fours and Fours-and-a-half, viz., Rs. 96½ for the former and Rs. 104¾ for the latter. Port Trust Bonds are quoted at Rs. 93¾ and Municipal Five per cent. Loan at Rs. 103.

SHARES are fairly steady. In Banks, Nationals are Re. 1 higher and Bombays Rs. 2½ lower. In Press Company the only change is an advance of Rs. 5 in Mofussils. Spinning Concerns are steady; Dhurumseys are up again to Rs. 385, and Bombay United and Khatao Muccoonjee have advanced Rs. 5, and Morarjees Rs. 10 per share. Among Miscellaneous Companies, Bombay Saw Mills have declined Rs. 20, and Treacher and Company Rs. 5 per share.

COTTON.—Influenced by the better accounts from home the market here has been firm to-day, and dealers are asking Re. 1 to Rs. 2 per candy more for their stocks. The local mills are buying rather freely, but purchases for export are still quite of a retail character.

The rains in the Berars during the last two days have been very general, and prospects are said to be most promising.

Our quotations for ready cotton are :—

Good Oomrawuttee.....	Rs. 205	per candy.
F. G. F. "	" 192	"
G. F. "	" 193	"
Good Dhollerah	" 203	"
F. G. F. "	" 195	"
G. F. Compta	" 190	"

LINSEED is weak at Rs. 6-12 per cwt.

RAPESEED is steady at Rs. 6-1 to Rs. 6-2 per cwt.

WHEAT is rather firmer at Rs. 3½ per candy for White and Rs. 27 to Rs. 28 per candy for Red.

FREIGHTS.—The market keeps very dull, but 30s. per ton is the nominal rate to Liverpool via Canal. For the Continent 37s. 6d. per ton is the rate for Marseilles and Genoa, and 47s. 6d. per ton for Trieste and Venice (both paid here at par).

IMPORTS.—The market has been very quiet without any changes of any importance in Goods or Metals.

COALS.—The sale is reported of a cargo of ready Cowpen West Hartley at Rs. 18 per ton.

MESSRS. C. MARCKS and Co., of Bombay and Poona, have the pleasure of announcing that Mr. A. MENIST, Oculist's Optician, of Amsterdam and London, has APPOINTED them AGENTS for the sale of his CELEBRATED PEBBLE SPECTACLES and EYE-GLASSES, BINOCULARS, &c.

Mr. Menist makes his Frames of Gold and Silver only, which have been found to be the best metals for the purpose, his object being to obtain perfection as nearly as possible, without regard to cost. He does not use steel, for this metal rusts, and the joints become loose, altering the focus of the glasses, and so injuring the eyes; neither is there any economy in it, for in this climate it corrodes so quickly that it must be often renewed, while Gold or Silver are practically everlasting, and Aluminium cannot be used, for it leaves an indelible mark on the skin wherever it comes in contact with it.

LATEST INTELLIGENCE

THE MARCH OF ABDUL RAHMAN

(FROM OUR OWN CORRESPONDENT.)

ALLAHABAD, JULY 13.

News, believed to be trustworthy, has been received that Abdul Rahman's infantry regiments, left Kinjan for Kohistan on the 8th, his six mountain guns on the 9th, while the Sirdar himself was about to start on the 10th. In this case he will probably reach Charikar on the 14th. All the forts and block houses built by the British about Kabul are now mined.

It is generally believed in the camp that Kabul will be evacuated about the middle of August.

Colonel Daunt, 9th Foot, has been appointed to the command of the 1st Brigade, second division, vice General Roberts, ordered to England on promotion to Major General.

MESSRS. EDWARD, BATES AND CO. have received a telegram from their agents at Port Said, informing them that the S. S. Branksome Hall passed the Suez Canal yesterday at 6 a. m., for Bombay.

TWO HUNDRED men of the 78th Highlanders arrived in Bombay from Poona at 4-30 yesterday afternoon and took up their quarters at the Colaba Barracks just vacated by the 2-11th Regiment. The Highlanders had no band and marched from the Boree Bunder station to the skirl of a pair of pipes. They were under the command of Major Mackenzie, the other officers being Captain Graham, Lieut. De Bathe Hatton, and Second Lieut. G. A. Browne.

At yesterday's meeting of the Town Council, the consideration of a proposed contribution from the Municipal funds towards the working of the C. D. Act in Bombay was resumed and further adjourned for want of time. Mr. Dosabhoy Framjee brought forward an amendment, which he had promised at the previous meeting, to the effect that the Corporation be recommended to inform Government that they were prepared to sanction a grant of Rs. 15,000 towards the expenses of the hospital which Government are about to establish in the city. Dr. Cook seconded the amendment, and addresses in support of it were delivered by Mr. Dosabhoy, Dr. Cook, Dr. Weir, and Sir Frank Souter. The speakers on the opposite side were Mr. Muncherjee Banajee, Mr. Nowrojee Furdoonjee, Mr. Raghunath N. Khote, and Mr. R. M. Sayani, some other members intended to address the Council; and at a late hour, the debate was adjourned until the next meeting.

WITH respect to the water difficulty from recent examinations, the Deputy Executive Engineer calculates that out of 601 houses, a wastage of 1,50,000 gallons per diem, both underground and superficial, would have been stopped. If the remaining house connections in the Tulsi districts were wasting water in the same proportion, the total wastage that could be stopped would be 7,50,000 gallons per diem. But the consumption from the Tulsi Lake, Mr. Braham was told, had amounted at times to ten million gallons per diem; and this excessive waste was attributable to the misuse of water for ornamental gardens, the use of ordinary bib cocks in yards and compounds supplying chawls in place of waste water preventers, to taps carelessly left open, &c. Acting on Mr. Braham's suggestion, the Town Council yesterday resolved to recommend the Corporation to sanction an additional grant of Rs. 550 per mensem for the employment for four months of an additional staff for preventing the waste of Tulsi water.

THE Goldsmiths' Company is considerably exercised in its mind about the doings of certain individuals, who are not only extensively manufacturing "old" silver plate, but marking it with the ancient "Hall mark" of the Goldsmiths' Company also. It appears that the "antique plate" and markings chiefly forged are those of the style known as "Queen Anne." A reward of one hundred pounds is offered to any one who will divulge the name of the forger. To such an extent has the roguery been carried on that only lately one collector was found to have in his possession no fewer than six hundred and forty-seven pieces of forged "Queen Anne's" plate, which he had purchased at an enormous price as genuine.

THE amount of cash held in the reserve treasury of the Government of India on the 8th July was Rs. 51,43,457-7-8.

A SUPPLEMENT to the *Gazette of India* contains a number of papers on the subject of the experimental cultivation of Ramieh cotton in India.

A TELEGRAM has been received in Bombay from Lisbon, dated 5th July, announcing the nomination of His Excellency Viscount Sao Januario as Minister for Marine and the Colonies.

IN the *Gazette of India* is published a memorial from the Indian Tea Districts Association, London, representing the present state and prospects of the tea industry in India, and suggesting certain measures calculated to promote the interests and further the development of the industry.

GUZERAT journals speak out now and then on behalf of suffering women kind in a very queer manner. An Ahmedabad weekly in crying down the system of polygamy which obtains in some castes of Hindus, instances the case of the editor of its local contemporary, whom it names, and who has just perpetrated a bigamy at the age of 48 by marrying a child aged 12.

THE *Indu Prakash* thinks the "Memorandum" on the Afghan affairs by a "Native Observer," published in the *Bombay Gazette* of Wednesday last, will be read with interest in India and England. It is the genuine expression of educated native opinion, offered in sober and dispassionate language, by a gentleman possessed of considerable political insight and experience.

AN alleged French murderer has just been arrested at Strasburg. He was "doing" the sights of the town and spending money pretty freely, when a gentleman called the attention of the police to him, saying that he looked like one who was spending the proceeds of crime. The stranger was arrested, and proved to be "wanted" by the French authorities for murder.

THE statement repeatedly made by travellers who have learned the truth from observation of the hard-working coolies of the provinces, that opium smoking is not of itself deleterious to the strength or industry of the consumer, has been generally ignored by the anti-opium fanatic, remarks the *Examiner*. That the Chinese themselves do not agree with the latter, any more than they do with the pharisaic class of Mandarins who object to opium, has been shown at Loochow, where an order of the Futai to close the opium houses has caused a general discontent, many of the inhabitants having left the place in consequence of this and other innovations.

AN English newspaper says:—The history of curious bets is unending, but the last Indian one is very uncommon. The two actors in it were both young men, and both, it is to be regretted, wicked with a great wickedness. It came about that they had to go to church to attend a week-day service and walking thither it struck them, so unregenerate were they, that a little bet would lighten the tedium of the journey. Sad to say, this took the form of a wager on the fact whether the hymns should be odd or even numbers. It is needless to say that the two subalterns were both killed in Afghanistan. This is, therefore, a moral tale, and one which we can recommend to Sunday schools.

IN an article upon the Garden Reach murder the *Indian Daily News* asks:—Why did the counsel for the defence challenge all the natives? It is a mistake to imagine that respectable natives, such as are selected for special juries, will go in for conviction against the weight of evidence. We reported a case only a few days ago at Howrah which showed that the tendency of the native mind is quite the other way. There may be natives who would convict, in order to satisfy some religious prejudice, but they are not to be found in Bengal, where the doctrines of Vishnu, the Lord of Life—doctrines which are held firmly by respectable natives—actually renders it almost impossible for the courts to secure a verdict, involving the deprivation of life, notwithstanding the clearest evidence.

IT is reported that Mr. Hariprasad Santokrai, of Bhownugur, has been selected by the Jam of Nowanugur for the post of Dewan. The arrangement with Mr. Hariprasad is stated to be that he is to secure for the State at a moderate rate of interest, and under proper securities and for a certain fixed period, a loan of about 18 lakhs that will enable the Jam to pay off his present creditors, all and sundry. Mr. Hariprasad, it may be mentioned, is the son of Mr. Santokrai Dessi, a late Dewan of Bhownugur. He is himself a very wealthy person, having a firm in Bombay, which is regarded as one of the most substantial native banking houses. If Mr. Hariprasad is the Dewan elect of Nowanugur what becomes of Mr. Maganlal? Has the Jam declined to accept his terms and have the negociations with him fallen through?

THE Lahore paper profanely says:—The ill-starred garrisons of Pezwan and Seh Baba on the Khyber line have had their attention diverted from their favourite occupations of yawning, fly killing, and guessing at the correct temperature, by a very interesting discussion that has arisen between the local politicals, Mr. Tucker and Captain Burton, as to whether Pezwan or Seh Baba is the precise spot where Nebuchadnezzar was turned out to grass. Both of these gentlemen claim for their own particular pastures, the reputation of producing grass so succulent, that it is fit for human food, and there can be no doubt that the local tribes so highly prize and price it that it is only procurable in small quantities, and with difficulty, from the lineal descendants of his grass feeding majesty. If any of our learned readers can throw light on this subject they would much oblige.

THE *Pioneer* learns from a private letter that in the cavalry action at Padhkao, Captain Seymour Barrow, who was doing galloper to General Palliser and had come out as a volunteer, went at a very big Ghazi, who crouched down below his horse and cut up at him, wounding him on the outside of his bridle hand and cutting down to the big bone. Captain Barrow turned his horse and went at him again and cut him down, but not before the Ghazi had given him another wound through the muscles of the right arm, below the elbow down to the bone. Captain Barrow is doing well. Another letter adds that Captain Barrow's Ghazi was finally killed by a sowar. Major Atkinson, of the 1st Punjab Cavalry, and Captain Leslie Bishop, 2nd Punjab Cavalry, who have been recommended for the Victoria Cross, each charged, separately and by themselves, two knots of 4 and 5 Ghazis, who had stood at bay.

THE Committee that has just assembled at Simla, to revise the system on which railway statistics are now prepared, consists of the following members:—Colonel Medley, President; Mr. Matthew, Agent, Bombay and Baroda line; Major Bisset, R. E., Manager, Rajputana Line; Messrs. Mackenzie and Lightfoot, Auditors of the East Indian Railway and Scinde, Punjab and Delhi Railway; Mr. Macdonald, Government Examiner; Captain Sargeant, R. E., Secretary. The *Pioneer* says the object of the committee is to inquire generally into the subject of Indian railway statistics, and more especially to revise the statistical tables now prepared, by the various railways, State and Guaranteed, for the Government of India and Secretary of State. It is not likely that the committee will have time to do more than this during its present sitting, but it is hoped that the departmental statistics may be dealt with hereafter.

THE *Civil and Military Gazette* remarks that the revised regulations for the Bengal army have scarcely been six weeks in existence, and behold, four pages of corrections have been issued. If the army departments cannot be entrusted with making their war estimates, except at the risk of frightful deficits, they might at least be deemed equal to the compilation of a book of regulations. What with additions, corrections and counter-corrections, the preceding edition has often been described as a disgrace to its authors. It cannot be from the strain of overwork: the staff at Simla is sufficiently numerous for even a much more formidable undertaking: perhaps the members are so very numerous as to stand in each other's way. But whatever the reason, it seems evident that these gentlemen would be much more usefully employed in picnics and theatricals than in compiling volumes of military regulations.

THE *Examiner* is of opinion that the proposition of Lord Stanley of Alderley, that an Indian Court of Appeal should be established, may command support from some arguments that he and those who agree with him forgot to use. One is that the House of Peers might be spared the infliction of irregular appeals from settled decisions. Another is the economising of the time of the Judicial Committee. Some reform is needed to save their lordships from having to waste several days wading through intricate matter and trying to arrive at a decision upon the rights of relations who claim through six or eight descents. The parties in the most recent and curious suit have been enjoying their litigation with Hindu zest for ten years, and might just as well have ended it in Bombay, where it began, as the decision of the High Court was affirmed. It would be useful and economical provision for some of the retired civilians to employ them in such a Court of Appeal and the Government might relieve themselves from a difficulty by offering the post of President to Sir Bartle Frere.

A GRAND military tournament, continuing the whole week, and which, under the patronage of the Prince of Wales, the Duke of Connaught, and the Duke of Cambridge, was being held when the mail left, in aid of the funds of the Royal Cambridge Asylum for Soldiers' Widows, was opened on June 21 in the Great Hall, Islington. The competitors include officers, non-commissioned officers, and privates belonging to the 1st Life Guards, Royal Horse Guards, 5th Dragoon Guards, 7th Dragoon Guards, 3rd, 4th, 10th, 11th, and 18th Hussars, 5th, 16th, and 17th Lancers, the Royal Artillery, Royal Horse Artillery, Royal Engineers, Grenadier, Coldstream, and Scots Guards, several regiments of the Line, and various Volunteer corps. The programme on each day, morning and evening, has been varied to include fencing bouts, contests with the sword against the bayonet for dismounted men, fencing on horseback, and the pulling up of tent pegs with the point of the sword. There has been, besides, one special feat which puts to a severe test the good training and exceptional steadiness of troopers and chargers. Entering the arena at a hand gallop, the swordsman has first to cut off a dummy head set upon a post, within a few yards he has to take off on the point of the sword a ring hung from another post, then to cut off another head from a post on the right, and, leaping a horse-topped hurdle, to carry off another ring and slash off two more heads. The bands of the Royal Engineers and Royal Horse Guards have enlivened the performances with music.

PARLIAMENT assembled for the despatch of business on the 21st of May. It will rise shortly after the grouse come of age on the 12th of August. More than one-third of the session has already elapsed, but, says the *Pall Mall Gazette*, so little progress has been made with public business as to occasion a good many anxious forebodings concerning the fate of some of the ministerial bills. In the Queen's Speech five measures were promised. Excluding departmental bills, confirming provisional orders, and the like, Ministers are already committed to thirteen. Of these, two, the Ballot Bill and the Census Bill, have not yet been read a first time. Of the other eleven, one, the Burials Bill, has passed through all but its final stage in the House of Lords, but it has yet to be introduced into the House of Commons. Two, the Customs and Revenue Bill and the Savings Banks Bill, are down for second reading. The second reading of the Hares and Rabbits Bill has been moved, but the debate was adjourned as soon as Sir W. Harcourt had finished his speech. With the exception of the Employers' Liability Bill, which has been recast after the second reading, the Irish Relief Bill, which went into Committee on the 18th, and the Seamen's Wages Bill, which was read a second time on the 1st inst., none of the other bills has advanced beyond its initial stage. Mr. Fawcett's Post Office Note Bill, Mr. Forster's measure reducing the Irish borough franchise and his Compensation for Disturbance (Ireland) Bill, and Mr. Dodson's bill amending the vaccination laws, have only been read a first time. As all of these bills will be more or less keenly opposed, the legislative outlook is not promising under these circumstances.

DEATH OF MR. TOM TAYLOR.

MR. TOM TAYLOR, the eminent playwright and critic, and latterly the editor of *Punch*, is dead. In one of the papers brought out by the last mail is a letter in which he contradicted a statement that he was dangerously ill; he was not he said suffering from paralysis, but only from suppressed gout, and would soon be as well, if not better, than ever. The sanguine hope was not unfortunately destined to be fulfilled.

Men of the Time gives the following sketch of Mr. Tom Taylor's busy life:—The author of nearly a hundred dramatic pieces, a tenth of them being adaptations from French plays or novels, born at Sunderland, in 1817, was educated at the Grange School, and went through two sessions at Glasgow University, in the course of which he received three gold medals and several other prizes. From Glasgow, he proceeded, in 1837, to Trinity College, Cambridge, where he took a degree as a junior optime, and in the first class of the classical tripos, and was elected a Fellow of Trinity. Mr. Taylor, who held for two years the Professorship of English Language and Literature at University College, London, was called to the bar at the Inner Temple in November, 1845, and went the Northern circuit until his appointment to the Assistant Secretaryship of the Board of Health, in March, 1850, and on the reconstruction of that board in 1854, he was appointed Secretary, with a salary of £1,000 per annum. When the board was abolished, and its functions were transferred to the Local Government Act Office, a department of the Home Office, Mr. Taylor was made secretary of that department which is charged with the execution of the important duties devolving on the Home Secretary under the Sanitary Act of 1866. In 1872 the functions of the Local Government Office were transferred to the poor Law Board, under its new name of the Local Government Board. Mr. Taylor's office was subsequently abolished, and he retired on a pension from public employment after twenty-one years' service. He has since undertaken the editorship of *Punch*, and still continues his contributions to the theatres. His last play, and one of the most successful, turns on the very dramatic story of Lord and Lady Lancaster, as told by Macaulay. Among his most successful earlier comedies may be mentioned "Still Waters run Deep," "Victims," "An Unequal Match," "The Contested Election," "The Overland Route," and the "Ticket-of-Leave Man." He has also revived the dramatic "History," in blank verse and five acts, in his "'Twixt Axe and Crown," and "Joan of Arc" produced at the New Queen's Theatre. Mr. Taylor has written many popular dramas, some in conjunction with Mr. Charles Reade, and has contributed to *Punch* in prose and verse since 1844. He compiled and edited the "Autobiography of B. R. Haydon," from the journals of that painter published in 1853; the "Autobiography and Correspondence of the late C. R. Leslie, R.A.," published in 1859; and the "Life and Times of sir Joshua Reynolds," left incomplete by the late Mr. Leslie, R.A., in 1865. Mrs. Tom Taylor is known, under her maiden name of Miss Laura Barker, as a musical composer of marked originality and power. Besides many published songs and other compositions, she has contributed an original overture and entr'acte music to her Husband's "Joan of Arc."

AMUSEMENTS AT AHMEDABAD.

(FROM A CORRESPONDENT.)

AHMEDABAD, JULY 10.

OUR little station has been unusually dull this year on account of the paucity of military officers, who have proceeded on field service to the north.

However, by way of outdoor recreation a cricket match was played yesterday between the station or Gymkhana and Royal Artillery teams. When play commenced the weather was hot, but towards noon and later on in the day it became pleasanter. Very fair play was exhibited on both sides. Macpherson, of the station team, handled the willow in grand style, and gave the R. A. men tolerable amount of leather hunting. Kuper's overhand slows were put all over the field in a masterly manner by Macpherson, but *en passant*, it must be remarked to the credit of Kuper that he caught Mackenzie surprisingly well to his own bowling. Macpherson had the satisfaction of carrying out his bat for a good score.

As Captain Humfrey, of the police, has given up racing as a bad job, it is feared that we shall not experience the pleasure of witnessing any good races, and the chances are that we shall have none at all. It was mainly through his exertions and untiring zeal that the Guzerat Race Meeting was such a success last season.

I cannot help remarking that the glory of the station has departed, never perhaps to return again. Fifteen or twenty years ago, Ahmedabad was noted for its grand Gymkhana and other sources of amusement. We cannot account for this general falling off in sports. We are afraid that the gentlemen of the present day are too apathetic to enter with heart and soul into any manly pastime. Where are the Hadows, the Thackers, the Cahussacs and a host of other gentlemen of former times, who were the life of the station? We look, but in vain, for men of their stamp among the present residents of the station.

The sky was over-cast yesterday, and last night we had a steady downpour, while to-day it is pouring still.

The ladies and gentlemen of the station intend to make a grand effort to throw off the *ennui* from which they suffer, and to enliven the place with either Penny Readings or a theatrical entertainment.

NOTES FROM GUZERAT.

(FROM OUR OWN CORRESPONDENT.)

AHMEDABAD, JULY 7.

JUPITER PLUVIUS has been most benign and seasonable. After keeping the whole country hereabouts for a fortnight in such suspense and anxiety as to evoke prophecies of a bad year, the welcome showers began to descend about the beginning of last week; for about four days we had the "gentle rain" pouring softly; from Friday night it commenced in earnest, all Saturday it poured heavily with much thunder and lightning, and on Saturday night between 10 and 11½ P.M., it culminated in a violent thunderstorm, the rain coming down in buckets-full. The storm was of such fury and force as to uproot trees and do other damage. The last three days the weather has been dry, and this break is very welcome and seasonable. We have already had in this place about 10 inches, one third our average rainfall; and from Kaira it is reported that they had nearly 12 inches on Saturday. Between this and Baroda the country is all under water; and sowing operations are being vigorously proceeded with. A portion of the B. B. and C. I. line was washed off between this place and Ahmedabad, and the trains on Saturday were delayed in consequence. The rails were not hurt, but all the earth and ballast beneath has been swept away, the sleepers being laid bare. This little incident shows the wisdom of the Company in not running the night mails during the monsoon. There have been several accidents on this line within this month or so, which show that the Company is rather short of hands. Since the death of the engine driver at Wadhwan, about which some correspondence appeared in your columns, another driver met with a curious accident a few days back. He fell out of the mail train, when it was going full speed after leaving the Anand station. He is of course severely hurt, and it is a marvel that he has escaped alive. The other night a fireman was killed, and another greatly injured by a goods train running over them near the Anand station. It seems they were engaged on the goods train from either Bombay or Surat. They came on to Anand, and whilst waiting for the goods train from here, went to sleep between the rails. The men were dead tired and exhausted from over-work, and consequently slept so soundly that one poor fellow was smashed up on the spot, whilst the other being a somewhat larger-bodied man was picked up by the cow-catcher and pelted off with an arm broken and other injuries. This accident, I am told, is now being inquired into by Government. It is said that firemen, pointsmen and even the gate-keepers at level crossings purposely sleep on the rails as they think the vibration caused by the coming train is sure to wake them in time. This may be so under ordinary circumstance, but if other causes intervene such as drink, or exhaustion from over-work, as in this case, then the wearied workman wakes up only in the other world.

On Monday last a grand entertainment was given at Saburmatee to celebrate the completion of the W. B. S. Railway as far as Pahlunpur. The guests were taken over and brought back by a special train. Many people were asked, but it seems few attended, and the dinner does not appear to have been altogether a success.

From Neriad we hear of extensive robberies in court fees' stamps. Examination of the records of the Sub-Judge's Court there for the years 1875 to 1878 show that forged stamps to the amount of Rs. 900 or so have been received without suspicion. The forged stamps are supposed to be photographed and otherwise so skilfully prepared as to escape detection, and it was only owing to some of these having faded off that led to their being suspected. The stamp vendor at Neriad has been apprehended, but is at present on bail pending the preliminary inquiry that is being made.

THE PERMANENT SETTLEMENT OF THE DECCAN.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—The land policy of India, and a Permanent Land Settlement for the country, are the topics of the day, and subjects which are evidently engaging the serious attention of those pillars of State on whom the onus of supporting the huge fabric of the Indian Empire morally rests. Those Indian Civil Servants, who hold sinecure appointments, or more properly the "Come-day, go-day, God-send-pay-day" style of officers, do not approve of innovations of any kind being made in the country, for fear that such changes would interfere with the easy, grooved career, or channelled official life in which they have been accustomed to work.

Whether a Permanent Settlement will be productive of perfect success throughout India or not is a fact which can only be proved by a succession of small but sure experiments, to be tried simultaneously in different parts of India. Let the Government create zemindars on a small scale, allotting each a limited number of villages. After the lapse of five or even more years, they should be called upon to give an account of they stewardship. A commission of enquiry, consisting of experienced revenue officers, should be deputed by the Government to examine and report upon the success or failure of the proposed system. Should the verdict of the commission be favourable, then the zemindar ought to be allowed to launch out extensively into the business, by receiving a grant of a larger number of villages. Guzerat sadly needs a change of some sort in the land policy. The majority of the cultivators are reduced to a sad state of destitution, and unless Government steps in between them and their difficulties, they will find it seriously difficult to obtain the usual amount of yearly assessment, which is at present, *apparently*, easily obtained from him by the village tullatee.

There are, we hear, many native capitalists in Guzerat, who would most gladly avail themselves of any encouragement which Government would be pleased to present to them. The native aristocracy, at present with their money lying idle, would be only too glad to embark in a business which, with the judicious aid of a well-meaning Government, promises fair to prove a perfectly successful enterprise.

HOMICIDAL EDUCATION.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—A book with the above title has just been published, by M. Laprade, on the excessive hard labour and severe discipline to which youth is subjected in the Government colleges and lycées in France. The subject is interesting to Europeans in India, many of whom send their sons to colleges on the Continent for two important reasons; first, because of the cheapness of education there compared with the cost in England, and, next, because of the great importance; which is now generally appreciated, of imparting to the rising generation a thorough knowledge of modern languages, which is simply impossible in English schools. In the communal college in France, for instance, in which two of my sons are being educated, there are between thirty and forty English boys. They report very favourably of the diet, which appears to be superior in point of variety, quality, quantity and preparation to the food given at high class English schools, and highly approve of the prohibition of corporal punishment, but complain bitterly of the hard work required of them and the rigid discipline to which they are subjected. According to M. Laprade, who takes his facts from the *statistique officielle* for 1876, thirteen or fourteen hours of incessant application and hard work are required daily, excepting Sundays and the afternoon of Thursdays which are devoted to religion and recreation, equitation, fencing, gymnastics, &c. At 5 a.m. in the summer and 5-30 in the winter the boys are roused up by roll of drums or ringing of bells. Thirty minutes to perform their ablutions and put on their uniforms, when they are marched, in military order and silence, from the dormitories to the school-rooms,—prayers and study till 7-30, then 30 minutes for breakfast, in strict silence and "recreation," from 8 till 10 class, and, at 10, *five minutes for recreation*, and then work till 12. After the midday meal an hour for recreation, except for those undergoing the punishment of being "kept in" or the infliction of music lessons. Then one hour study, two hours class, half an hour recreation and three hours more study, which bring them to 8-30 p.m. When the bell rings for the evening meal for which 30 minutes are allowed, and the balance of the 24 hours, that is, from 9 p.m. till 5 a.m. next morning when the mill is again set going, is allowed for prayers, meditation and sleep. In the opinion of M. Laprade this incessant application amounts to "homicidal education." He calls it a crying evil which requires interference of the State. He considers that thirteen hours daily of mental application and intellectual effort are enough to break down grown men and cannot fail to be injurious to youth, both mentally and bodily. M. Jules Simon says of it—"Excessive labour and mental application are as deleterious to our children as labour in factories to the children of the working classes," and "it would seem that the hygiene of our stables and kennels is considered of more importance than that of our schools, since those two great elements of happiness, health and strength, are matters of indifference." This state of things, if generally known, will perhaps make parents in India think twice before consigning their children to a *collége communal* or *lycée* in France. In Germany, I am informed, work is as hard and discipline as strict as in France, but I scarcely believe it. The fact that education on the Continent is not half so expensive as in England, in fact considering the point that there is only one vacation in the year (from 1st August to 30th September) it scarcely exceeds a third of the cost; and considering the extreme importance of a thorough knowledge of modern languages, many English parents who cannot afford the expense of giving their children an education in England, will continue to have them educated partly on the Continent. In order to give the boys the benefit of the classes and at the same time emancipate them from the tremendous labour and cast-iron discipline which *pensionnaires* are subjected to, they can adopt the plan of placing them as day scholars, *externes libres*, who prepare their lessons at home and only have to attend the college four hours daily—*i. e.*, during class hours; this course is taken by many English parents to whom it is convenient for the mother of the boys to reside in the neighbourhood of the college and for her sons to live with her. The charge for *externes libres* is only £4 per annum, and as the cost of living is much less than in England the plan will ensure a sound education at a minimum cost.—I enclose my card.

VESSELS ARRIVED.—The following vessels arrived yesterday—Umballa (s), from Kurrachee; Suliote, New York.

VESSELS SAILED.—The following vessels sailed on the 13th:—Ellora (s), to Kurrachee; George Gilroy, Havre; H. M.'s Ruby (s), Zanzibar; Himalaya (s), Madras; Puttialla (s), P. Gulf via Kurrachee.

PRINCE'S DOCK.—The S. S. Ellora and ship G. Gilroy left the dock yesterday.

KEROSINE OIL.—The British ship Suliote, which arrived in Bombay harbour yesterday from New York, brought 40,000 cases kerosine oil.

ASSAULT.—Yesterday, at the Fort Police Court, Mr. Duncan Mackay, the second engineer of the steamship China, was fined Rs. 20 by Mr. Nana Morojee for assaulting Mr. William Blume, the third engineer of the same vessel, on the day previous on board that vessel.

A PICK-POCKET.—Soobah Sawoo was yesterday convicted by Mr. Dosabhoy Framjee of attempting to steal Rs. 3-10 from the pocket of Syed Alisa Bickumsha while at the G. I. P. Railway station, Byculla, on the day previous. He was sentenced to two months' rigorous imprisonment.

FORT GRATUITOUS DISPENSARY.—The total number of patients admitted during the last month was 4,549, the average daily attendance being 151; there were 944 new admissions. Of this number 1,417 were children. The prevailing diseases were fever, diarrhœa, chest and skin diseases, &c.

ACCIDENT.—A girl, named Oomerbee, aged five years, on Monday last, while looking out of a window on the first floor of a house situated at Khara Talao, overbalanced herself and fell out on the public road, a height of about 18 feet, and sustained a fracture of the left leg and other injuries.

GAMBLERS.—Jooma Hajee and seven others were yesterday charged, at the instance of Mr. Inspector Whitten, before Mr. Nana Morojee, with being found gaming in a common gaming house at Nowrojee Hill. They were all convicted. One of the prisoners was fined Rs. 10, another was fined Rs. 8, and the rest Rs. 4 each.

FURIOUS DRIVING.—Two hack buggy drivers, named Goolam Hoosein Goolam Ally and Succaram Luximon, were yesterday each fined Rs. 5 by Mr. Dosabhoy Framjee for driving their respective vehicles on the day previous in a rash and negligent manner, the former on the Bellasis Road and the latter on the Duncan Road.

FLOODS AT NOWANAGAR.—A correspondent of a Gujarati paper reports the occurrence of extensive floods in the neighbourhood of the river Oond near Nowanagar. On perceiving the rush of water from a distance two shepherds, who were tending cattle, saved themselves by going up a tree, but the flocks consisting of about 300 sheep and about a dozen asses are said to have been completely washed away.

WATER AT TANNA.—The inhabitants of Tanna suffer great hardship in the summer season in consequence of the scarcity of water. The Municipality and the Collector have striven hard to get water into the town; and we are glad to learn that they have now succeeded in getting the Government to sanction the sum of Rs. 77,000 for the purpose; the expenses are to be paid from the Local and Municipal Funds.—*Deccan Herald.*

ALLEGED THEFT OF CURRENCY NOTES.—Ebrahim Hajee Allarucka, a shop-keeper at Old Cazee Street, reported to the police on Monday evening last the theft of Rs. 675 in currency notes from his shop, and he suspected two of his servants, named Cassum Sally Mahomed and Balla Raghoo, to be implicated in the theft. The complainant appears to state that on Monday forenoon he took six notes for Rs. 100 each and Rs. 75 in small notes out of a box and laid them in a bundle by his side where he was sitting on the floor of his shop, which bundle of notes he had forgotten to take with him when he went to his house leaving the above mentioned servants in charge of the shop. When complainant returned to his shop in the afternoon he found the bundle of notes missing. The two servants were taken in custody by the police and enquiries made, but no trace of the notes have as yet been found.

of a co-suitor." Now, under the rules of the court only counsel, instructed by attorneys, could address the court on the Original Side.

The judge said Mr. Shantaram appeared under a general power of attorney on behalf of a person residing out of the jurisdiction.

Mr. Budroodin mentioned that Mr. D. E. Gostling desired to apply for an adjournment as agent to the liquidator of the Manchester Spinning and Weaving Mills who resided out of the jurisdiction; but that on an objection being taken, Mr. Justice Marriott refused to hear him. The power of attorney produced by Mr. Shantaram was a special power.

Mr. Santaram said that it was a general power.

Mr. Budroodin remarked that it was a special power only for the present case; and he was told that it insufficiently stamped.

The judge, on an inspection, observed that the power was insufficiently stamped; but his Lordship said Mr. Shantaram appeared merely to assent to a decree being passed; he did not appear to argue.

Mr. Budroodin said that he (Mr. Shantaram) ought not to be allowed to open his mouth. Mr. Gostling was in a more unfortunate position; he wanted to say something in order to get the case postponed, but he was told to sit down. Now section 635 of the Code set the matter at rest in the following terms:—"Nothing in this Code shall be deemed to authorize any person on behalf of another to address the court in the exercise of its ordinary original civil jurisdiction or to examine witnesses except when the court shall have, in the exercise of the power conferred by its charter, authorized him so to do, or to interfere with the power of the High Court to make rules concerning advocates, vakils, and attorneys.' The learned counsel said he might mention that this was not a new point at all. It had been often raised in the courts and had been disposed of in this way.

The learned judge said he must yield to the objection under the circumstances. Mr. Shantaram might, if he wished, have the point argued.

COURT OF SMALL CAUSES.—JULY 12.

(Before Mr. HART)

HIRJI ROOPJI Vs. MACANLAL BIJRANGLAL.

Judgment was delivered by his Honour in this case, which was heard on the 5th and 6th inst. Mr. Bhaishankar, of Messrs. Jefferson, Bhaishankar, and Dinshaw, appeared for the plaintiff; and Mr. Thakurdas, of Messrs. Shapurjee and Thakurdas, for the defendant.

His Honour said.—The plaintiff sues to recover the sum of Rs. 775 as the balance of an account between the parties for goods mutually bought and sold and payments made on account by the defendant. At the hearing the plaintiff admitted that he had not given credit for Rs. 35 (*shahi* allowance, as it is called), to which the defendant was entitled. The claim was thus reduced to Rs. 740. The defendant then admitted the several items in the account except those relating to a sale of mulls by the plaintiff to the defendant, in respect of which, while admitting the quantity sold, he said he was overcharged in the price, and contended that if the account were correctly made, there would be found to be due from him to the plaintiff the sum of Rs. 322-8-9 only. I held that the burden was on the plaintiff to prove the terms of the contract in respect of which he sought to charge the defendant with the sum which he claimed. The plaintiff's contention was that he had sold to the defendant's broker, on account of the defendant, eight lots of mull, distinguished by different numbers, the lowest of which was 101, the highest 801, and that the price agreed to be paid was Rs. 2-6-6 per piece for the mull in lot No. 101, Rs. 2-10-6 for that in lot No. 201, and so on, the price rising annas four per piece in each lot, and that the plaintiff to allow the defendant 3¼ annas discount on the total price. The defendant, on the contrary, asserted the agreement to be that he should pay Rs. 2-6-6 for the mull in lot No. 101, and that after that no advance for each successive number should be the same as plaintiff should be charged by his vendors, and which plaintiff at the time of the contract, represented to the defendant's broker would be about annas four. It is now admitted that the plaintiff was charged by his vendors an advance of annas 3 per piece for each higher number, together with an addition of half anna for "brokerage." If, therefore, the defendant's version of the contract be correct, it is on this basis that he must be charged. But he appears to have arrived at the sum which he admits by debiting himself with the price under the contract which he alleges, and then crediting himself with the discount under the contract which the plaintiff alleges and he himself denies, but still omitting to debit himself with the half anna on the total paid by the plaintiff to his vendors under the name of brokerage. Clearly the defendant cannot be allowed to pick the plums out of both contracts, and thus arrive at a third agreement different from and yet more favourable to himself than that alleged by either party. If, on the principle above enunciated, the plaintiff's version of the contract, be correct, he will be entitled to recover Rs. 740. But if the defendant be right in his version, the plaintiff will be entitled to Rs 626-15-5 only—that is to say, about Rs. 113 is, in fact, the bone of the contention, and the burden is on the plaintiff to prove the terms of the contract under which he claims to recover the higher sum. As to this the plaintiff in my opinion fails utterly. I have little doubt that the version which the plaintiff now gives of the transaction was an after-thought, and that his witnesses have been tutored, but by no means skilfully, to support him. The contradictions, discrepancies and inconsistencies in and between the several accounts are so numerous and so glaring as to deprive them of all credit. The plaintiff thus fails to prove the case which he sets up At the same time, however, even on the contract, which the defendant alleges, the plaintiff is entitled to recover a sum nearly double of that admitted by the defendant. Under these circumstances I can make no order for the professional costs of either party. Verdict for plaintiff, Rs. 26-15-5.

BOMBAY PORT TRUST.

EXCERPTS from the proceedings of a meeting of the Trustees of the Port of Bombay held on the 8th instant:—

Before proceeding with the business of the meeting the Chairman alluded to the grievous loss which the Trust had sustained by the death of Mr. Ryan, Traffic Manager. The Chairman said that at the last meeting he had to mention that under medical advice Mr. Ryan had been put on board the English mail steamer dangerously ill. From that illness he had never rallied, but died at sea on 27th June, the day after leaving Bombay. Every one present deeply felt Mr. Ryan's loss; to know him was to appreciate him and in his devotion to his duty working early and late, it might fairly be said that his life was sacrificed. The Chairman proposed that the Trustees record their sense of the loss they have sustained by Mr. Ryan's death and their sympathy with his family in their bereavement. A copy of the minute to be sent to Mrs. Ryan. This was unanimously agreed to.

Read letter from the Traffic Manager, dated 29th June, pointing out that fresh provisions taken on board vessels for the voyage at Prince's Dock are charged 1 anna wharfage, 1 anna shipping charge per cooly load, and that the shipping charge gives great dissatisfaction to the vessels. As the Dock renders no service in puting the provisions on board, he recommends that the shipping charge be abolished and only the wharfage fee levied. Read minute by members of Dock Committee approving of the suggestion. Resolution.—The abolition of the shipping charge is sanctioned as recommended.

Read letter from the Secretary to Government, Marine Department, dated 2nd July, stating that in the present uncertainty as to whether the troopships will be allowed to enter the Prince's Dock, Government consider it unadvisable to enter on the question of using the Sassoon Dock to carry out trooping arrangements next season, and that a reference is about to be made to the Secretary of State with a view to ascertaining whether the Admiralty will permit troop-ships to enter Prince's Dock when the channel is deepened. In the meantime Government request that the Carnac Bunder sidings may be retained until the question of using one of the Docks is definitely settled, the sidings being used next trooping season as heretofore. Resolution.—Government should be informed that the experience which the Trustees have now gained in working traffic at Prince's Dock shows them that the troop-ships cannot be accommodated in the Dock without causing great inconvenience to trade. Even; therefore, though the Admiralty should decide that troop-ships may be allowed to enter the Prince's Dock, it will still seem to the Trustees undesirable that they should do so, and if the military authorities are of opinion that the Sassoon Dock is a convenient place for the landing and embarking of troops, the Trustees would suggest that the question may at once be decided. The inconvenience to trade which will be caused by the use by the troops of the Carnac Bunder in the coming season may thus be avoided.

Read letter from the Fort Officer, dated 26th June, submitting for approval a revised scale of charges for the hire of the steam tug Dromedary:—

1. For towing vessels through the northern Prince's Dock channel, if employed for only one vessel.....	75
2. Do.—If employed for two vessels on the same tide each	50
3. Do.—If employed for three or more vessels on the same tide each.....	40
4. For towing from the Prince's Dock to anchorage south of cross Island or *vice versa* for vessels of and under 1,000 tons register.....	100
5. Do.—For vessels of over 1,000 tons register.....	125
6. For towing from Prince's Dock to Inner light or *vice versa* for vessels of and under 1,000 tons register..	125
7. Do.—For vessels of over 1,000 tons register.....	150
8. For towing to Outer light, or *vice versa* for vessels of or under 1,000 tons register.....	175
9. Do.—For vessels of over 1,000 tons register.....	225
10. For detention of Tug by reason of vessels not being ready, or other cause per ½ hour or fraction thereof.....	15

11. An additional charge of 20 per cent. during the south-west monsoon will be made for duties Nos. 6, 7, 8 or 9.

12. Rates Nos. 4 and 5 will be charged for towing vessels to or from the Government, P. and O. or B. I. S. N. Company's Dry Docks, and the Patent Slip. Charges for duties not included in the above schedule can be specially arranged on application to the Port Officer. Read minutes of members of Harbour and Pilotage Committee approving of the proposed rates. Resolution.—The rates are sanctioned.

Read Government Resolution No. 3272, dated 2nd July, recommending to the Government of India that an Act of the Legislative Council of India be passed to insure the removal of fishing stakes from the approaches to Bombay harbour. Resolution.—To be recorded.

Read letter from the Traffic Manager, dated 28th June, stating that Callianjee Tejpall, one of the applicants for the purchase of 336 5/9 square yards land at Mody Bay Imperial Estate referred to in Trustees' Resolution No 408, dated 3rd June, refuses to move further in the matter. He therefore recommends that the ground be sold to Canjee Lilladhur at Rs 30 per square yard. Resolution.—The land should be sold for Rs. 30 per square yard to Canjee Lilladhur subject to the sanction of Government.

Read letter from the Traffic Manager, dated 29 h June, forwarding an application by Ahmed Hajee to lease for 50 years 228 4/9 square yards land on Elphinstone Estate at a rent of Re. 1 per square yard per annum for first 20 years and Re. 1½ per square yard per annum for remaining 30 years. He recommends that the lease be granted provided the applicant agrees to expend Rs. 5,000 on the building to be erected. Read minute by members of Land Committee. Resolution.—The lease may be granted at the rents offered on condition that the applicant agrees to erect a building of the value of Rs. 3,000.

Read letter from the Traffic Manager, dated 17th June, stating that about 1,000 buffaloes have been brought to Mody Bay from the town, and that there is no water supply available for them. He suggests that an unused water trough to the north of Elphinstone Bridge be moved to the south of Carnac Bridge and connected with a main. Read report by Resident Engineer, dated 3rd July, estimating the cost of removing and re-erecting the trough at Rs 353, and stating that a new trough of similar construction would cost Rs 510, while a temporary wooden trough connected with the main would cost Rs 166. Resolution.—A temporary trough to cost Rs 166 should be provided.

Read letter from the Traffic Manager, dated 30th June, stating that the police peons watching the dock wharves at night have no sheltered accommodation to sleep in during the period of relief, and recommending that two wooden chowkeys be provided for the purpose. Read memo. by Acting Resident Engineer, dated 6th July, estimating the cost at Rs 176. Resolution.—Sanctioned, to be charged to revenue.

The following were amongst the papers laid on the table:—

Government Resolution No. 3191, dated 19th June, recommending the Government of India to regulate by special legislation the import, transport, &c., of dangerous explosives of the nature of dynamite.

Letter from the Traffic Manager, dated 29th June, reporting his having taken over from the Collector on 25th June the property of Mr. Dadabhoy Hormusjee at Sewree.

Pilotage statement week to 6th July:—

12 vessels piloted into harbour.
11 vessels piloted out of harbour.
11 vessels transported.
2 vessels attended to.

Statement of vessels that have entered and left Prince's Dock during the week ending 6th July:—

2 vessels entered.
3 vessels left.
7 vessels remaining in dock.

MADRAS.

THE RUMPA REBELLION.—A correspondent writes that, according to the latest reports received from different officers, there are hopes of an early termination of the rebellion. On the arrival of the 36th Regt. N. I. from Coconada, 75 men were sent to Yellesheram to relieve the party of the 10th N. I.; 60 men were despatched to Chodaveram, and the remainder to Mukeangiri. About 100 men, under the command of Colonel Grant, have been ordered to proceed from Woodegudien to Chintur. Balajee, one of the leaders concerned in the attack on the Poresh police station, has been wounded by a contingent sepoy at Kurti, but he managed to effect his escape to Bustar, where, it is reported, he has been captured. To facilitate communication at certain parts the Local Government have accorded sanction to the opening of a post line from Waddigudien to Motu.—*Madras Times.*

IRRIGATION.

THE report of the Irrigation Department in Sind for 1878-79 appear in the *Gazette of India*. It states that the year under review was a very favourable one for irrigation; and notwithstanding the occurrence of disastrous floods, the revenue obtained was very largely in excess of the average for the three preceding years. The Superintending Engineer's report is altogether the most complete report on the Sind Canals yet submitted. The returns of the area irrigated, however, it is stated, are still unreliable, but it is satisfactory to observe that this matter is receiving attention from the Government of Bombay and the local officers, so that there is a fair prospect of the exhibition of correct results ere long; up to the present time the figures have been at best but approximations. With reference to paragraphs 11 and 12 of the Bombay Government's Resolution, the Government of India would be glad to hear the result of the reference regarding the financial prospects of the Desert and Begari canals The area stated to have been irrigated during the year was 2,016,089 acres, of which 1,885,315 acres were Government lands, and 130,774 acres jaghir. The total direct expenditure during the year is reported to have been Rs. 16,55,537, including the charges in the Civil Department for revenue collection. These latter charges appear to have been erroneously included under "direct" expenditure in the report. The accompanying statement of financial results has been prepared from the booked accounts in the Accountant General's Office. It contains the figures for nine canal systems for which Capital and Revenue accounts are kept. The Capital accounts of the Pinyari canal in the Karrachee Collectorate and those of the Kasmore and Kasimpur bunds, which appeared in the two previous statements, have been discontinued under the orders of the Government of India. On the nine works in progress for which capital and Revenue accounts are still kept, the expenditure during the year was, on capital account Rs. 2,28,818. On revenue account Rs. 5,61,573. Total Rs. 7,90,391. Deducting this amount from the aggregate expenditure for the year (Rs. 16,55,537), the outlay on all the other canals amounted to Rs 8,65,146. The area irrigated by these nine works during the year under review was approximately 1,062,692 acres, exclusive of the irrigation of jaghir lands on the last four systems in the statement, which is not shown separately for these canals in the report. The working expenses thus appear to have been about Re. 0·53 per acre irrigated against Re. 0·60 in the previous year. The attention of the Government of Bombay is invited to the 8th paragraph of the Resolution on the previous year's report. The separate statements of the working expenses and the area irrigated during the year, for each separate canal or system of canals, which were called for, are necessary for a proper comparison of results. It appears from the report that there are 163 canals, each having a separate head on or towards the east by the property of Bhaooeet Baleeth in Sind, aggregating 5,643 miles in length. Of these, 12 canals, aggregating 1,287 miles in length, are on the right bank of the river, and 151 canals, aggregating 4,356 miles in length, are on the left bank. The river is embanked for 174 miles on its right bank, and for 145 miles on its left; the inland bunds, chiefly in connection with the Eastern Nara system of canals aggregate 135 miles in length. In future reports, details of any variations there may be in the lengths of canals or bunds should be appended for information. According to the booked accounts the accumulated balances of revenue at credit of these canals, after deducting working expenses, were increased during the year from Rs. 88,62,369 to Rs. 94,57,444, and deducting interest charges from Rs. 47,65,158 to Rs. 49,98,269. The calculations of duty of water were vitiated by floods, except in the Rohri and Fulali Divisions. The figures which are given for these latter divisions show very poor results, and appear on comparison to be more or less unreliable. On the Nasrat canal, where more than half the irrigation is by natural flow, the duty is shown as 61·6 acres per cubic foot per second; while on the Rhein, where less than 7 per cent. is natural flow, the duty is shown at 19·5 acres only; the proportion of rice cultivation being actually less in the latter case.
